Bib Aprons

We work closely with only the top UK manufacturers to bring you the ultimate products, with fabrics sourced from some of the world's finest mills in the industry.

Pockets are available with the Poly Cotton Drill bib aprons. The ties on the bib aprons are made from 20mm cotton webbing, which

is sewn securely into the hems. The ends are double folded for extra strength. The halter is not adjustable and side ties are fixed at the waist and tie at the back.

For younger children, we have purposefully designed a halter-free bib apron with extra long neck ties that cross at the back and then threaded through waist grommets before knotting.

Tabards

The front and back are fastened at the hip with cotton webbing tape and side release clips which give extra width to the garment.

Pockets are available on the poly cotton drill tabards.

All edges are finished in bias binding for extra strength and a neat finish.

The binding is generally black; however, we can use colours to match your school's colour scheme.
